Dear business friends,

On behalf of TÜV SÜD Central Eastern Europe s.r.o., let me **inform you of changes** in the structure of the international **TÜV SÜD Group** that operates in the Czech Republic as well.

TÜV SÜD Czech s.r.o., a leading provider of certification, inspection and education services, and TÜV SÜD Auto CZ s.r.o., automotive approval and testing authority, agreed on a merger effective as of **July 1<sup>st</sup>, 2009**. The merged company is called TÜV SÜD Czech s.r.o.

This merger created the largest certification, testing and inspection entity on the Czech market with the broadest portfolio of services "under a single roof." We believe this step will enable us in the current demanding economy to achieve our goals more efficiently and easily through using our full capabilities without any internal obstructions. We are also going to continue enhancing and expanding our services.

We assure you this legal step will in no way impact mutual business obligations, receivables, contracts and other relations. The necessary administrative changes are detailed in the appendix.

We are looking forward to our further successful collaboration.

Best regards
