AVO

TÜV SÜD as a technical services provider operate in the TIC (Testing, Inspection, Certification) market. Its range of services embraces consultancy, inspection, tests and expert reports as well as certification and training. Our objectives are reliability, safety and quality, environmental protection and profitability. By providing these services, TÜV SÜD delivers competitive edge to its clients throughout the world. Founded in 1866 as a steam boiler inspection association, the TÜV SÜD Group has evolved into a global, future-oriented enterprise.

At present, more than 24,000 employees around the world (850 locations) are committed to optimizing technology, systems and know-how. In 2015, TÜV SÜD increased its consolidated revenue from EUR 2.06 billion to EUR 2.22 billion.

In the Czech Republic, TÜV SÜD has been operating since 1995, having nine offices in all regions (presented by TÜV SÜD Czech).

COOPERATION:

The range of TÜV SÜD services in the INDUSTRY Segment extends from support in ensuring the safe and reliable operation of industrial plants, buildings and infrastructure to testing of rolling stock, signalling systems and rail infrastructure. The TÜV SÜD experts in

the MOBILITY Segment provide vehicle inspection and exhaust tests and support manufacturers in automotive design and development and in applications for international approval of new models and components. The CERTIFICATION Segment tests products throughout the world to ensure their marketability and market entry and certifies management systems across all sectors of industry; TÜV SÜD further offers a wide range of training for staff in the industry, trade and public sectors.

TRANSFER:

As dedicated and responsible specialists with wide-ranging industry expertise, we develop made-to-measure solutions – for retail customers as well as for industry, trade and government. We have combined our services in the three segments INDUSTRY, MOBILITY and CERTIFICATION.

We are continuously developing our business model. The framework for this is provided by our customers and the markets in which we operate. As a basis for enhancing our forward-looking strategy, we constantly monitor key factors such as technological change or increasing consolidation in our markets.
